

Karl Louise Rito

Web Developer / Full-Stack, Laravel, Vue.js, Agile

Professional Summary

Highly disciplined and results-driven **Full-Stack Web Developer** specializing in Laravel, Vue.js, and modern web application development. Currently delivering scalable, secure, and high-performance solutions for diverse client requirements at SVEN - The Digital 1st Agency. Proven expertise in API integration, system architecture, and agile methodologies. Experienced in fine-tuning AI models for enhanced developer tools and code quality. A Trimex Colleges IT scholar committed to continuous learning in technologies like AI, Machine Learning, and Data Analysis.

Experience

- Sept 2025 – Present **Web Developer, SVEN - The Digital 1st Agency**, Quezon City, Philippines (Remote)
- Led full-stack web development projects, designing and deploying **scalable, high-performance applications** tailored to diverse client needs.
 - Ensured **system reliability** by actively participating in project planning, **API integration**, system design, and rigorous technical troubleshooting.
 - Maintained continuous professional growth, adapting to and implementing **emerging full-stack technologies** to align with evolving project demands and industry best practices.
- Sept 2023 – Oct 2025 **Full-stack Developer (Promoted)**, *Switch Connect*, Laguna, Calabarzon, Philippines
- Served as the **core developer for key accounts, including Honda**, successfully driving critical web application development using **Laravel, Vue.js, GraphQL, and MySQL**.
 - **Mentored and provided technical guidance to junior developers**, fostering skill growth and ensuring adherence to best practices within Agile and Scrum full-stack workflows.
 - **Optimized task management** using Jira, contributing to clear project tracking, efficient communication, and timely delivery within a multi-year project cycle.
- April 2022 – Sept 2023 **Junior Web Developer**, *Switch Connect*, Laguna, Calabarzon, Philippines
- **Contributed to the development and success of the coche.ph web application**, a key project instrumental in securing and supporting the significant Honda client account.
 - Collaborated with senior teams to build **responsive, user-friendly frontend features (Vue.js)** and assisted with robust backend development (**Laravel, MySQL**).
 - Actively participated in **Agile development cycles**, including sprint planning and daily stand-ups, to ensure high-quality outcomes and team alignment.
- Oct 2024 – Jan 2025 **AI Trainer for Developers**, *Outlier*, Remote
- **Trained and fine-tuned AI models** specifically for developer assistance and code generation, significantly enhancing their performance.
 - Collaborated cross-functionally to improve AI model efficacy in understanding coding patterns, debugging processes, and applying software development best practices.
 - Directly contributed to the development of **AI-powered tools** aimed at boosting developer productivity and ensuring high code quality.

Education

Binyan, Laguna, 4024 –
